

Technical datasheet and material specification

We hereby confirm that below mentioned product conform to the technical specification shown in this document.

Identification	
Model No	TX25
Description	½" air operated diaphragm pump
Serial No	-

Materials and specifications	
Part description and part No	Material Options
Housings	Aluminium / Cast Iron / PTFE Coated Aluminium
In/outlets	Aluminium / AISI 316L / Cast Iron
Diaphragms	PTFE / EPDM / NBR
Valve balls	PTFE / EPDM / NBR
Valve seats (integrated in housings)	Stainless steel AISI 316
Centre block (not wetted)	Aluminium / Cast Iron / PTFE Coated Aluminium
Air valve (not wetted)	Brass/NBR Brass/EPDM Brass/FKM

General data		General performance curve
Inlet connection	1/2" BSP (female)	
3" BSP (female)	1/2" BSP (female)	
Air connection	1/8"	
Max discharge pressure	8 bar	
Max air pressure	8 bar	
Temperature range	-20°C +110°C	
Weight	2 kg	
ATEX details	EX-proof according to ATEX group II, cat 2, T4	
Notes	Special executions on request	
Connections	Special executions on request
